TO WHOME IT MAY CONCERN

Dear Sir,

Here is a brief description of our business:

Confiz Limited is a 480+ people technology services company, specialized in development of web & mobile solutions providing high quality software development services to customers worldwide. We have built software for startups to large brands like Whirlpool, Kenmore, Amana and SAGE.

We offer our service on fixed price for a certain project, monthly price based and hourly price based as we agree with the customer/s.

We recognize our revenue when due and billed to customer

We are not actually exporting any products, we provide technology services to different foreign customers, develop software, websites and mobile applications which are exempt from income tax under section 133 of second schedule of income tax ordinance.

For further details you may visit www.confiz.com

Please let us know if you require any further information.
