

About us

We at Geekinn, provide consulting, advisory and innovative services worldwide. We're here for you to deliver technical excellence, uncompromised quality and services. Geekinn is distinctively positioned to help international organizations and private companies grow and make an impact. What makes us most joyous is realizing our services improve life for our clients. We upgrade business processes through, custom software engineering services, application maintenance and modernization.

Founders

Geekinn is co-founded by M. Ahsan Salal, M. Abdullah and Noman Hassan. They were dedicated to establishing a platform where people would not only enhance their expertise in technology and development but also make better business decisions. We are devoted to providing consultations, advisory and effective services leveraging global resources. However, our team of experienced professionals is targeted to deliver the best of their knowledge to help the organizations stand out effectively.
