TECHDAR PRIVATE LIMITED

TECHDAR PVT LIMITED was registered in Pakistan on 19th May 2021 with Pakistan's Security and Exchange Commission. We are established to provide IT solutions to businesses. We build IT Software in Pakistan and provide it to the Parent company in the UK, which reimburses us for our OPEX. We are building a chain between the customers and the provider by reducing the cost of developing.

Techdar is a technology services provider within the finance sector. We deliver platform development, website optimization, and consultancy on core banking systems.

Our team is made up of software and marketing professionals working closely with our clients all over the world with a special focus on the UK market.

We work with the following technologies:

- NET
- Java
- Angular
- Nodejs
- SQL Server
- JavaScript
