Our Mission

To provide highest quality services and solutions to our clients and a productive and innovative environment for our employees to excel in the world

Converge Values

Converge creates a solutions which is optimized to your requirements, Custom by default Contrast this with one size fits all bundles sometimes promoted by companies that rely mainly on product sales Because we are vendor-independent, we can select the best-fit solution to minimize y our Total Cost of Ownership, and maximize your Quality of Service.

Emphasis on Security

As systems become more complex and serve greater numbers of more mobile users among an organization's vendors, customers, employees and others, effective security becomes an escalating challenge. We bring an unparalleled expertise in secure IT networking to the service of your enterprise, combining proven methodologies and innovative technologies to match your needs exactly.

Quality, Delivery, Responsiveness, Price

We document our goals clearly on each of these crucial parameters and follow processes and standards to measure achievement continually and stay on target. There is no other way to go about it, is what each of us believes. Our high score on the customer appreciation index is a measure of how consistently we are able to deliver on these crucial parameters.

Converge - Process & Methodologies

Converge follows standard industry process models such as Spiral (incremental), Waterfall and implementation of quality solutions for various clients, we recommend the spiral model for most projects as it helps reduce risk and time to market.
