

Vision Statement:

Systems Limited as Institution is committed to being the Leader of IT & ITES in the region through our thought leadership, sustained service delivery excellence, strong customer focused employees, strong relationship with our customers, partners, and vendors. To that end we must continuously innovate, enhance our service offerings, achieve superior financial results and increase value to our clients and trusted shareholders. These unwavering expectations provide the foundation of our commitment to those with whom we interact.

Mission Statement:

Systems Limited is dedicated to providing the highest quality business solutions, IT & IT Enabled Services and people to our clients and business partners that earn their respect and loyalty. We aim to be the number one service provider through our battle tested methodologies, processes, frameworks and customer focused resources in the niche Industry and Technology/Business Sector we operate.

Business Profile:

Systems Limited, founded in 1977 is the leading global Technology and Business Process Outsourcing service provider, delivering innovative business solutions and technology-led BPO services. With over 2,500 employees globally, our people help customers around the world maximize their IT investments and create specialized solutions that drive business results. These solutions leverage our deep technical skills, accelerators, frameworks and products, industry best practices, and domain expertise to ensure they achieve the business goals and creative competitive advantage for our customers.

Systems Limited brings industry insights and the business acumen focused on helping its customers achieve a high ROI, offers enterprise mission-critical software solutions, and brings a deep technology agnostic skill set which remains unmatched in the industry. By delivering on hundreds of projects, we have developed industry-specific offerings and cross-industry offerings, plus a suite of tools and accelerators that enable our customers to realize business benefits faster with increased efficiency and lower overall IT costs.

The winning combination of our people, best-in-class technology, innovative business practices and value-added global alliances help us team up with corporate and public sector organizations to deliver value by producing a significant return on our clients' investments.
